# PLV-Z1

1/4 HD Resolution Wide-screen (16:9) Multimedia Projector

#### PERFECT FOR DVD AND HIGH DEFINITION VIEWING

The PLV-Z1's wide 16:9 aspect ratio along with it's ¼ High Definition (964x544) resolution panels make it the perfect match for viewing 16:9 widescreen DVD movies (480i, 480p) and HDTV (720p, 1080i) format programs. For High Definition sources, the ¼ HD resolution panels provide better scaling and improved image quality than our competitor's Wide VGA resolution panels.

#### **EASY SETUP**

As the first projector in its class to offer vertical and horizontal lens shift, along with vertical keystone correction (+/- 20°) and a short zoom lens (100" diagonal image at 9.8'-11.8'), the PLV-Z1 is easy to setup for most any application.

## **HIGH QUALITY IMAGES**

Boasting a remarkable contrast ratio of 800:1, Auto Grey Scale and Auto Flesh-tone functions, a selectable Color Temperature option, and 10-bit Digital Gamma Correction for fine tone reproduction, the PLV-Z1 produces incredibly lifelike high-quality images.

## A VARIETY OF INPUT OPTIONS

The PLV-Z1 is equipped to accept a variety of input sources including Computer, Component Video, Composite Video, S-Video, and PC High Definition up to 1080i.

### WHISPER QUIET FAN

Employing SANYO's Whisper Quiet fan technology, the PLV-Z1 produces an amazingly low noise level of only 28 dBA (theater black mode).

# BACKLIT I/R REMOTE CONTROL

The backlit infrared remote control makes it easy to control the projector even in dim or no light situations.
